

# *Scheduling Challenges*

# *Scheduling Challenges*

- Asset allocation
  - most projects constrained by scientific elements
  - more requests than assets available
- Instrumentation
  - aircraft compatibility
  - certification
- Logistics
  - hangar requirements
  - scheduled maintenance

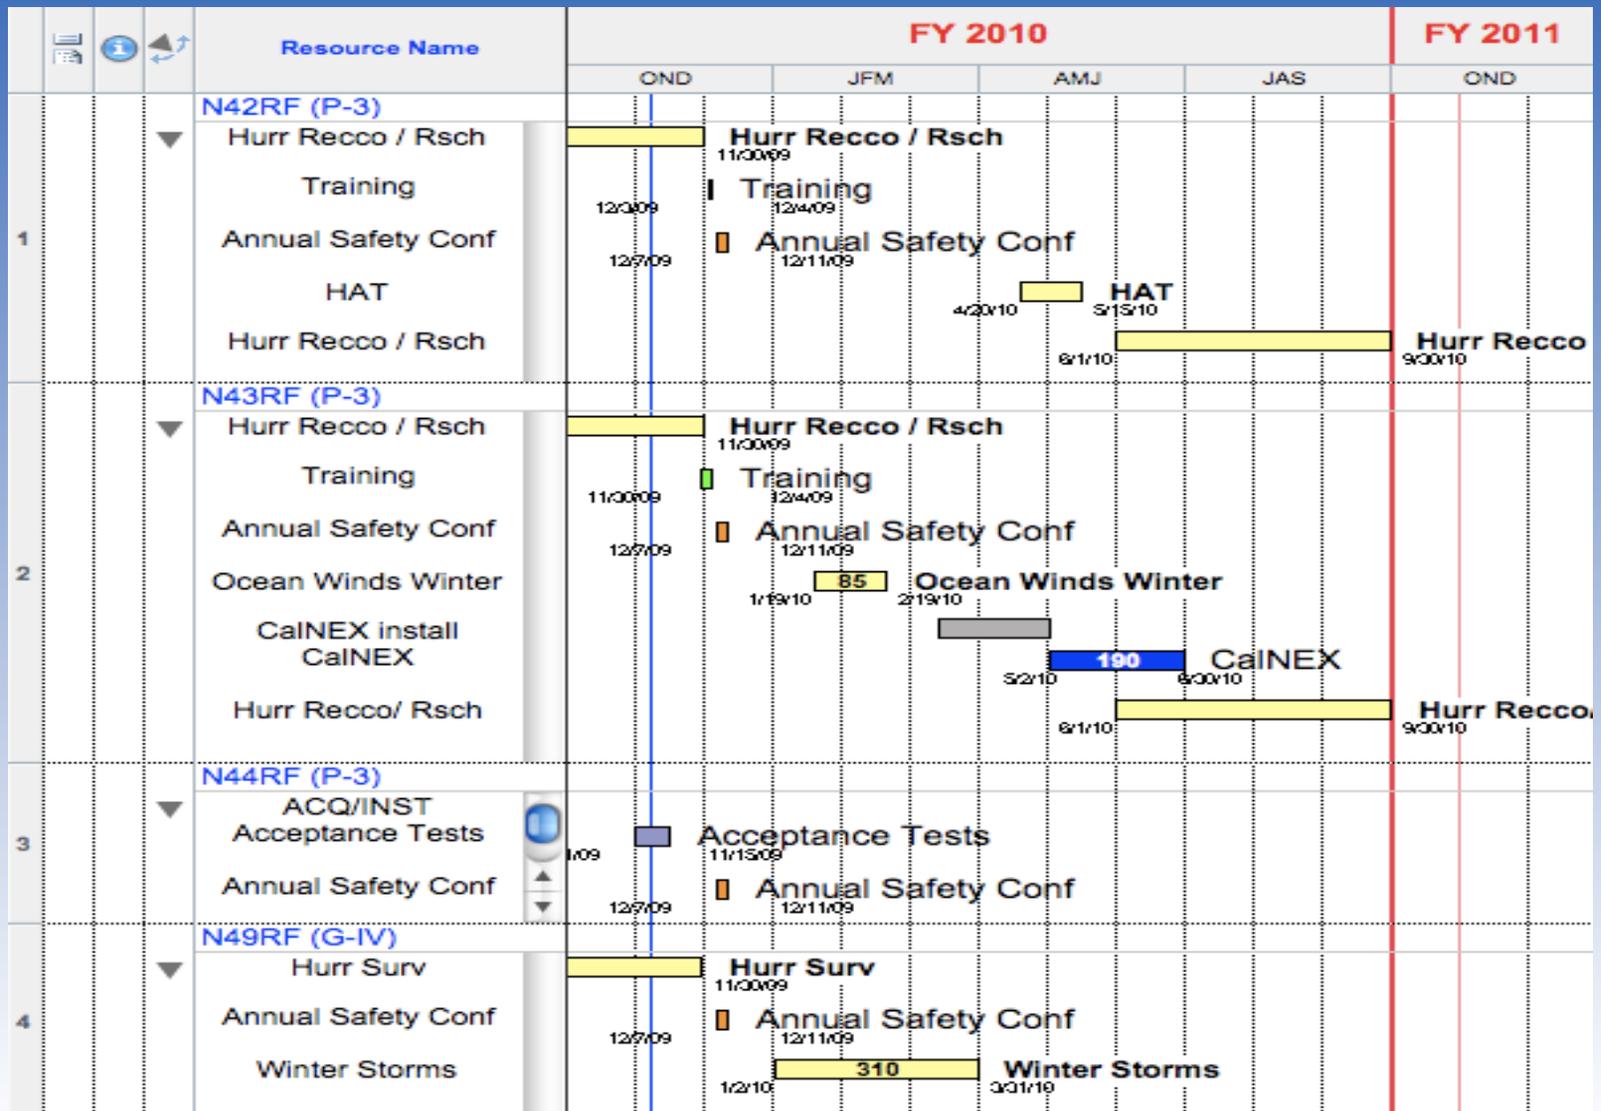

# *Scheduling Challenges*

- Foreign logistics
  - research permits
  - landing/ insurance/etc
- Putting it all together
  - Combining scientific requirements + logistics + instrumentation + crew + maintenance + ?
